

COMPANY **PROFILE**

ABOUT US

Faithworth Energy Limited is an indigenous oil and gas servicing company driven by a team of highly skilled professionals with extensive hands-on experience in oilfield operations. We are duly incorporated as a limited liability company and registered on the NNPC-NIPEX NJQS database.

The company was established to deliver reliable Drilling and Completion Services - Directional Drilling Services/MWD/LWD, Drill Bits and Hole Enlargement Services, Cementing Services, Brine Filtration Services, Drilling Fluids Services, Wellbore Clean up, Well Completion, alongside specialized solutions in Well Intervention and Project Management

Over the years, Faithworth Energy Limited has steadily expanded its capacity and technical capabilities, achieving significant milestones across various projects. Today, we are recognized as a trusted indigenous player in the oil and gas industry, with proven expertise in oilfield services and project management—particularly in remote and

technically challenging environments.

Our commitment to excellence, safety, and operational efficiency continues to position us as a dependable partner in the energy sector.

Faithworth Energy Limited has been strategically positioned to build and sustain a strong competitive advantage in alignment with its long-term vision.

VISION

To be at the fore-front of providing world-class engineering services to the oil and gas industry as far as our capabilities and our horizons can reach, ensuring quality and timely delivery to the customers whilst maintaining a high level of dedication and integrity.

MISSION

To be a company that offers complete drilling and completion services to exploration and production companies in Africa and Gulf of Guinea with prime attention on the Nigerian Market through technical support, chemical supply, and mud engineering services, Down hole Tools, etc. We have also leverage on the country's drive to push for indigenous participation by forming partnerships with international technical companies in the delivery of our services.

CORE VALUE

Quality Service Delivery ■ Professionalism ■ Commercial Excellence
Team Work ■ Integrity ■ Continuous Improvement And Innovation

The Company Culture

The nature of our services and its seamless delivery through the use of latest modern technology sets us apart as one of the best in the industry. We have a team of well trained, competent and experienced group of engineers that champion our service delivery process ensuring that there is no non-productive downtime, adherence to best international safety practices and meeting pre-agreed timelines.

Our equipments are routinely and properly maintained, we also have a huge stock if replaceable parts and other accessories to ensure uninterrupted service delivery. We have a service agreement with our equipment manufacturers of the servicing of our equipment.

Our People

Faithworth Energy has a virile and very dynamic workforce that we like to refer to as our strength. This is in line with our mission to recruit, retain and reward a high-performance workforce.

This hardworking, virile and dynamic workforce is managed and controlled by a group of highly competent management team with tonnes of experience in the petroleum sector, giving our company an edge over others in terms of productivity and service delivery to our clients.

We have a quality system for accessing key skills and experience to ensure that our staff and consultants have significant and relevant experience relative to the job they are assigned.

The company ensures continuous professional development for our team and allocates resources to various unique training and development programs.
